A FILM ABOUT YOUNG CHILDREN'S LANGUAGE DEVELOPMENT

Help your child develop language skills! is a film for parents of children aged 0–5.

It shows how children develop language, and what you can do to help. Good early language development is extremely important for your child's future. Language skills also provide the foundations that make it easier for your child to learn to read and write at school. This film shows how you can develop the joy of reading together and gives practical advice to help start your child on the pathway towards a lifetime of reading success and pleasure.
